

MC series — Dustcaps

Why choose a Dustcap

The MC standard Dustcap is designed to maximise the protection of the threads on both the MC Plugs and Sockets. It is designed to screw directly onto the threads on the mating half. We recommend that any units in storage or installed but not in use have a Dustcap fitted, this will ensure that dust, dirt and greases cannot build up on the threads of the mating part and damage or delay their use. Please note these units are not pressure seals.

Units are available with both Metric and Imperial threads, matching the threads on the mating Plug or socket.

Units are usually supplied in Red acetal, other colours are available to order to complement your equipment.

Units can be supplied with or without a fitted cord for ease of removal and storage.

Please ensure that you choose the correct unit for your equipment, Plugs and Sockets have different threads and the matching Dustcap is not interchangeable.

What other products can we utilise with the MC Dustcap

MC standard Sockets (usually used as the main panel mounted, fixed piece see data sheet in this section)

MC standard Plugs (usually the floating half of an umbilical assembly, see data sheet in this section).

MC — Series Dustcaps

Technical Data

Body Material	:	PVC
Operating temperature range	:	- 40°C to 80°C
Working medium	:	Compressed Air (for others please consult factory)
Place of origin	:	All manufactured in the UK
Dimensions	:	See drawing section

Stock Sizes

Part number	For socket or Plug?	Suits range	Body size
C-MC40DCP	Plug	Metric	40 mm
C-MC40DCS	Socket	Metric	40 mm
C-MC50DCP	Plug	Metric	50 mm
C-MC50DCS	Socket	Metric	50 mm
C-MC70DCP	Plug	Metric	70 mm
C-MC70DCS	Socket	Metric	70 mm
C-MC75DCP	Plug	Metric	75 mm
C-MC75DCS	Socket	Metric	75 mm
C-MC40DCiP	Plug	Imperial	1.57"
C-MC40DCiS	Socket	Imperial	1.57"
C-MC50DCiP	Plug	Imperial	1.96"
C-MC50DCiS	Socket	Imperial	1.96"
C-MC70DCiP	Plug	Imperial	2.75"
C-MC70DCiS	Socket	Imperial	2.75"
C-MC75DCiP	Plug	Imperial	2.95"
C-MC75DCiS	Socket	Imperial	2.95"
